2006 Kentucky Annual Long-Term Care Report

Introduction

The Division of Health Policy Development, within the Office of Health Policy, announces the release of the 2006 Kentucky Annual Long-Term Care Report. This division is responsible for the utilization data collection and reporting required by 902 KAR 20:008 (rev. 2-16-01) and in support of the State Health Plan 902 KAR 17:041.

This report covers the period from January 1, 2006 to December 31, 2006. The files received from the Office of Inspector General (OIG), Division of Licensure and Regulation contained 399 Long Term Care Facilities. Correspondence or surveys were received from all licensed facilities except one which was closed in early 2006. The number of facilities has decreased from 410 Long Term Care Facilities in 2005. The number of Nursing Facility (NF) beds decreased from 26,622 in 2005 to 26,078 in 2006.

The 2006 overall occupancy rate for NF beds was 91.48%, an increase of 1.81% from the 89.67% occupancy rate in 2005. This rise in the occupancy rate continued a two year trend in the upward direction, after the downward trend that began in 1995 and continued through 2004, with the exception of 1999. The highest occupancy rate was 95.00% for the survey year 1995 and the lowest was 89.35% in the 2004 reporting year. The total net change from 1995 to 2006 was a decrease of 3.52% for NF beds. The rise in occupancy rate was likely due to the decrease in the number of facilities and licensed beds servicing the same Kentucky population.

The ending census, or the number of NF beds occupied December 31, 2006, was 23,724 compared to 23,769 occupied beds on December 31, 2005, a very small decrease compared to the decrease in the number of licensed beds. However, the decreased number of beds were occupied for 9,728 more patient days in 2006 than in 2005 (8,681,581 patient days in 2006 compared to 8,671,853 patient days 2005).

Payor Source for 2006

The 2006 Payor Source, Section 2, for total patient days as reported by nursing facilities shows the following distribution: The total number of reimbursed days for nursing facilities was 8,698,590 days or 24,793 more than 2005. Medicare paid days increased by 10,719 days from the 2005 report. Medicaid paid days were 20,729 more in 2006 than the previous report year. The number of Medicaid paid days had decreased by a substantial amount the previous three years. This increase was most likely caused by the higher patient days and higher occupancy rate experienced in 2006.

***NOTE:** When checking ending census for the previous year and the beginning census for the current year, there may be a discrepancy in the numbers.

Definitions

Long-Term Care: A facility licensed by the state through the Division of Licensing and Regulation providing one or more of the following levels of care:

Nursing Facility (NF) - Long-term care facilities, formerly skilled nursing, nursing home, or intermediate care facilities prior to October 1, 1990, which meet the Omnibus Budget Reconciliation Act of 1987 (OBRA 87) nursing home reform requirements. Nursing facilities must be certified to participate in the **Medicare program in order to be certified for participation in Medicaid**, with the exception of those who have obtained a Medicaid nursing requirement waiver.

Nursing Home (NH) - Establishments with permanent facilities that include inpatient beds, and with medical services including continuous nursing service; that provide treatment for patients who require inpatient care but do not currently require continuous hospital services.

Intermediate Care (IC) - Establishments with permanent facilities and health related services for patients who do not require the degree of care and treatment which a hospital or skilled nursing facility is designed to provide, but who, because of their mental or physical condition, require care and services (above the level of room and board) which can be made available to them only through institutional facilities on an inpatient basis.

Alzheimer's Facility (ALZ) - A long-term care facility constructed and operated pursuant to KRS.216B.071 that provides care to residents with a primary diagnosis of Alzheimer's disease or related disorders.

Intermediate Care Facility for the Mentally Retarded (ICF/MR) - A facility licensed by the state through the Division of Licensing and Regulation to provide care for the mentally retarded and developmentally disabled.

Total Patient Days: The total days of patient care provided by the facility for the year based on its capacity. It is calculated by summing the daily patient census for each day in the reporting period.

Days in Period: 2006 had 365 days.

Licensed Beds: The number and type of beds for which the facility has been licensed at the end of the reporting period.

Percent Occupancy: Total days divided by potential patient days.

Potential Patient Days: Number of licensed beds multiplied by the number of days in the reporting period (adjusted to reflect changes in licensed beds during the reporting period. Example: 100 licensed beds X 365 (days in 2006) equals 36,500 potential days. This figure is not shown in the report but used to calculate occupancy percentages.

Reporting Period: January 1, 2006 to December 31, 2006

Nursing Facility Special Note: If a facility converted Skilled Nursing (SN), Nursing Home (NH), or Intermediate Care (IC) beds to NF beds during this reporting period, all resident activity in these beds was considered to be NF for the entire period regardless of the date of the change.

This report now becomes the most recent official data on Long Term Care services utilization published by the Cabinet for Health Services. For additional copies of this report, please submit a request in writing along with a check in the amount of \$15 made payable to the Kentucky State Treasurer to:

Table of Contents

Introduction – Table of Contents	i – vi
Data Analysis – Occupancy Rates	vii – x

Section I – Census Data

Includes number of licensed beds, beginning census, admissions, discharges, ending census, total patient days and occupancy percentage for each bed type.

Licensed Nursing Facility Beds by Area Development District	1
Licensed Nursing Facility Beds.....	2
Licensed Personal Care Beds by Area Development District.....	40
Licensed Personal Care Beds	41
Licensed Nursing Home Beds	69
Licensed Intermediate Care Beds	73
Licensed Alzheimer’s Facility Beds	75
Licensed ICF/MR Facilities	76

Section II – Payor Source Data

Includes primary payor source data in number of patient days for each bed type.

Licensed Nursing Facility Beds.....	78
Licensed Personal Care Beds	110
Licensed Nursing Home Beds	127
Licensed Intermediate Care Beds	131
Licensed Alzheimer’s Facility Beds	133
Licensed ICF/MR Facilities	134

Section III – Patient Age Distribution Data

Includes the ages of patients residing in each facility on December 31, 2006.

Licensed Nursing Facility Beds.....	136
Licensed Personal Care Beds	167
Licensed Nursing Home Beds	189
Licensed Intermediate Care Beds	193
Licensed Alzheimer’s Facility Beds	195
Licensed ICF/MR Facilities	196

Section IV – Patient Death Distribution Data	
Includes the ages of patient deaths in each facility during 2006	
Licensed Nursing Facility Beds.....	198
Licensed Personal Care Beds	227
Licensed Nursing Home Beds	250
Licensed Intermediate Care Beds	254
Licensed Alzheimer’s Facility Beds	256
Licensed ICF/MR Facilities	257
Section V – Nursing Facility by ADD	259
Section IV – Notes.....	283
Section VII – Patient Origin Data.....	1 - 91

Data Analysis - Occupancy Rates

The following tables and graphs present statistics from the Kentucky Annual Long-Term Care Reports from 1995 to 2006. In the published reports for 1996 and 1997, the data was reported in Medicaid Managed Care Partnership Regions (MCPR) rather than in Area Development Districts (ADDs). The survey data were recalculated using the ADDs so that a linear comparison could be made. A map of the ADDs is included at the end of this section.

LTC facilities continue to be an important segment of the continuum of care in Kentucky. Hospital discharge data for 2006 shows a total of 396,642 patients age 41 and older were discharged from Kentucky Acute Care hospitals for all DRGs. Of the 225,254 females discharged 33,336 or 14.8% were discharged to a skilled or intermediate care beds. Males discharged to skilled or intermediate care beds accounted for 9.7% (16,667) of the total 171,386 males discharged from hospitals in 2006.

The occupancy rate for licensed NF beds has decreased over the past twelve years by 3.52% from 95% in 1995 to 91.48% in 2006. The following chart shows the decrease in occupancy with a continuous decline from 1995 through 1998 with a very small increase in 1999 (0.05%) and recent gains in the last two years. Again, in 2006 the occupancy rate increased by 1.81%. This was most likely due to fewer facilities and patient beds servicing the population of Kentucky. The occupancy rate in the following table shows data for each year by ADD. From 2005 to 2006, occupancy fell in five of the fifteen ADDs. An attached chart shows a graphical interpretation of the data.

The number of licensed Nursing Homes (NH) beds decreased from 412 in 2005 to 393 NH beds in 2006, with an increase of patient days from 121,669 in 2005 to 126,015 in 2006. Similar to patient days, the occupancy rate for NH beds increased from 83.53% in 2005 to 87.74% in 2006.

Further data on the occupancy rates by bed type are presented on the following charts and table.

Printed with state funds.
